

ELEVATING
INTERIORS
with TEAK VENEERS

Greenply Industries, the pioneer in interior infrastructure, has been transforming Indian living spaces for over three decades. With a comprehensive range of high-quality products, including Plywood, Block Boards, MDF, Decorative Veneers, Flush Doors, and more, Greenply is committed to enhancing the aesthetics and functionality of interiors across the nation.

At Greenply, we don't view veneers as mere surface treatments. We see them as expressions of artistry, and our dedicated team of skilled craftsmen, working in our state-of-the-art decorative manufacturing unit in Bamanbore, Rajkot, Gujarat, leverages cutting-edge technology to bring out the unique beauty in every veneer product. We believe that every surface should tell a distinctive story.

WHERE
ELEGANCE
KNOWS
NO BOUNDS

Elevate Your Space to Uncharted Elegance

Step into the world of Woodcrrests, where beauty has no boundaries and time takes a back seat. It's an exceptional collection that transcends the ordinary, leaving an indelible imprint on your soul. Prepare to embark on a journey into the realm of luxury that knows no equal.

Nature's Masterpiece, Crafted from Exotic American, European & African etc. Timber

Born in the heart of exotic forests from around the world, Woodcrrests veneers by Greenply carry unique natural grains and patterns bestowed only by Mother Nature herself. Each veneer is a testament to the artisan's skill, exquisitely crafted to deliver the epitome of luxury. When you adorn your home with Woodcrrests, you're not just adding décor; you're embracing a masterpiece of artistry.

A Myriad of Over Eleven Hundred Designs

Dive into a world of choice with Woodcrrests. You'll find yourself spoiled for options, with an extensive collection boasting more than eleven hundred designs. This collection unveils itself like a mesmerizing symphony, featuring three enchanting categories, each with its own story of timeless beauty.

At Greenply, we believe in transforming interiors into a canvas of art, and Woodcrrests exemplifies this belief. It's time to make a statement with your interiors, to tell a unique story with every surface, and to elevate your living spaces to a realm of unbounded luxury.

The Woodcrrests Veneer Distinction

- Zero Emission veneers for safe interiors - E0
- More than 1100 Designs
- Sourced from the exotic forests of Portugal, Brazil, Spain, Italy, Germany, Africa & North America
- Pre-press technology for better stability and bonding
- Automated finishing process for identical surface output across sheets
- BWP grade carrier base ply
- Heavy-duty home made ply

Teak Veneers

Like a sun-kissed treasure, teak veneer graces spaces with its initial golden honey-brown hue that deepens into a luscious, age-induced brown over time. This dense and oily hardwood, a cooperative canvas for craftsmen, easily unfolds its strength, beckoning creativity. Its preferred finale, a delicate touch of wipe-on oil, enhances its natural allure. With a substantial weight, teak boasts a uniformly coarse texture and a grain that tells tales in medium porosity. Enter Woodcrests' realm, where teak veneer transcends expectations, offering a symphony of cuts, various dimensions, and the luxurious backer Burma teak, weaving versatility into the very fabric of woodcraft enchantment. Each piece, a chapter in the story of refinement, awaits grace spaces with the timeless charisma of teak.

Available Products:

Burma Teak | Royal Crown | Kohl Forest | Canada Teak | Central Region Teak |

Malabar Teak | Golden Teak Grandiose

BURMA TEAK

Experience the timeless beauty of Burma Teak.

Experience unparalleled luxury with our Burma Teak veneers, crafted from 100% natural wood. These veneers, available in various grades and grains, bring out the innate beauty of timber, transforming your interior into a regal space. Choose Burma Teak for a touch of timeless refinement in the warm corners of your home.

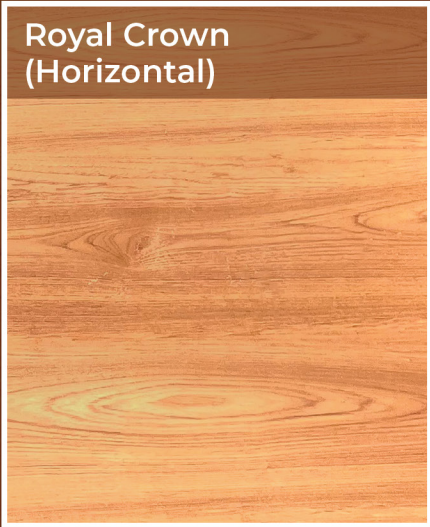

Product Name	Type of Cut	Available Sizes (Fts.)	Grain Pattern	Veneer Face Thickness
Burma Teak	Qtr.	8x4 7x3	<u>Vertical</u> Horizontal	0.25 mm

ROYAL CROWN

Redefining sophistication with Royal Crown Veneers.

Transform your home into a canvas of elegance with Royal Crown decorative veneers. These meticulously crafted panels speak volumes of sophistication, creating an ambiance that resonates with timeless beauty. Craft memories and elevate your space with the unmatched refinement of the Royal Crown.

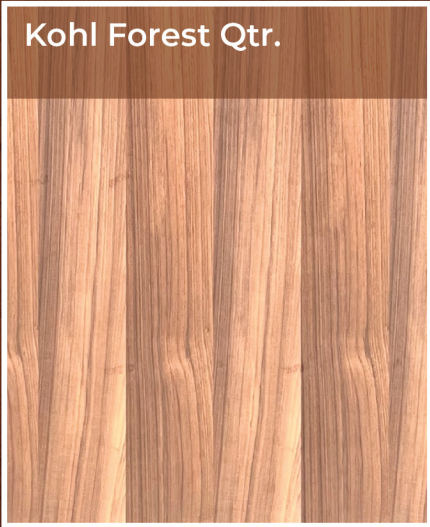

Product Name	Type of Cut	Available Sizes (Fts.)	Grain Pattern	Veneer Face Thickness
Royal Crown	Crown	8x4 10x4 7x3	<u>Vertical</u> Horizontal	0.30 mm

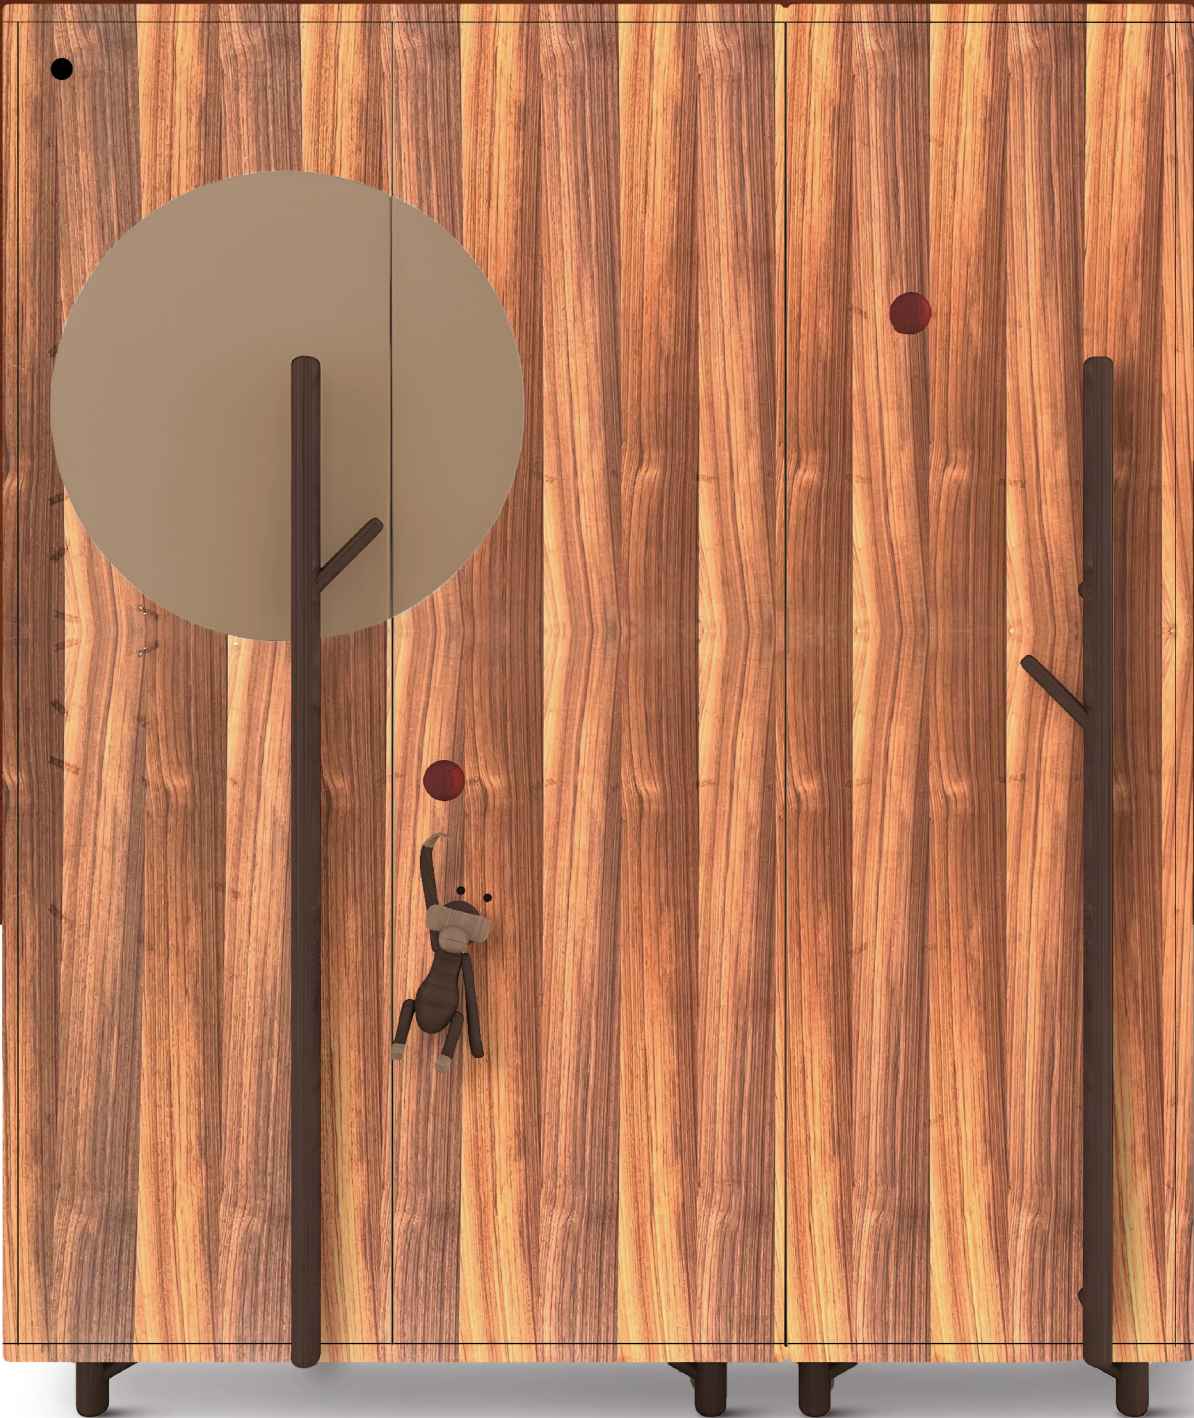

KOHL FOREST

A symphony of dark hues and eco-luxury.

Meet Kohl Forest, an opulent collection inspired by global forests, uniquely smoked for a rich, dark finish. These CE-certified and eco-friendly veneers not only bring sophistication to lavish interiors but also breathe new life into your spaces with the finest craftsmanship. Elevate your surroundings with Kohl Forest—a blend of exotic allure and eco-luxury.

Kohl Forest	Crown Qtr.	8x4 10x4 7x3 8x4 - 7x3	Vertical Horizontal Vertical Horizontal	0.30 mm 0.25 mm

CANADA TEAK

Infusing elegance with dark pencil grains.

Introducing Canada Teak, where the allure of dark pencil grains meets the distinctive charm of Punjab interiors. This collection is meticulously crafted to elevate spaces, providing a sophisticated touch that resonates with the essence of Punjab's unique style. Embrace the richness of Canada Teak's dark pencil grains, a testament to luxury and refinement that transforms your living spaces into an epitome of elegance.

Product Name	Type of Cut	Available Sizes (Fts.)	Grain Pattern	Veneer Face Thickness
Canada Teak	Qtr.	8x4 7x3	<u>Vertical</u> Horizontal	0.25 mm

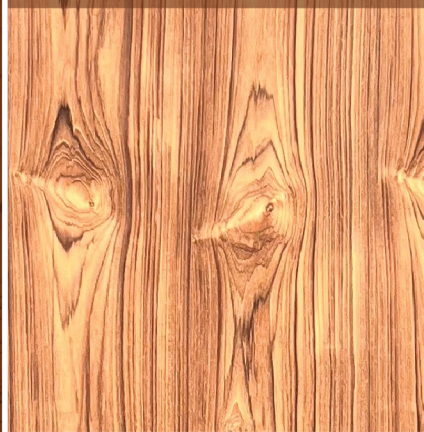

CENTRAL REGION TEAK

Slow grown, distinctive, and desirable.

Central Region Teak, cultivated in the arid landscapes of central India, is a masterpiece of nature. Its slow growth results in a close grain, offering a deeper color profile. The distinctive twisted or wavy grain patterns enhance its appearance, making it not only visually appealing but also a sought-after choice that commands a higher market value.
