# ABOUT US

## ABOUT US

Greenply Industries is among India's largest interior infrastructure companies transforming Indian interiors spaces for more than three decades with comprehensive range of plywood & block boards, MDF, decorative veneers, flush doors, and other allied products.

At Greenply, we believe that veneers are not just surface treatments; they are expressions of artistry. Our team of skilled craftsmen in state-of-the-art and largest decorative manufacturing unit at Bamanbore, Rajkot, Gujarat has leveraged technology to enhance the beauty and functionality of our veneer products, ensuring that every surface tells a unique story.

## Bringing The Beauty Of Nature To Life

In the world of Greenply, the air is as fresh as a crisp morning breeze. So, what's the secret? The resolute belief to create products and services inherently keeping in mind the health interest of its consumers to safeguard the indoor air quality by reducing formaldehyde emission to zero.

Woodcrrests veneers are environment and people safe, international emission standards set by CARB (California Air Resource Board) and EPA (Environmental Protection Agency) keeping the indoor air quality safe for the occupants and the craftsmen of interiors.

Led by a sustainability-oriented approach, Greenply has been undertaking extensive plantation activities over the past several decades leading to responsible procurement of raw materials. Greenply has also attained the FSC® – FM (Forest Management) Certification from the Forest Stewardship Council (FSC®) for its sustainable plantation unit located in Tizit, Nagaland, and is the first company to have successfully achieved this certification in the interior infrastructure segment in India. To date, Greenply has planted more than 25 million saplings covering an area nearly of 31,000 acres of plantation.

# EXQUISITELY CRAFTED

[www.greenply.com](http://www.greenply.com)

Elevate your spaces to unparalleled heights of elegance and immerse yourself in a world where beauty knows no bounds. Discover a collection that transcends time and leaves an indelible mark on your soul. Welcome to a realm of luxury that knows no limits.

Made from the finest timber source from exotic forests of Europe, bearing natural grains and pattern, Woodcrests veneers from Greenply are crafted exquisitely to deliver ultimate luxury. It gives your home something that is beyond just a décor.

With over more than Eleven Hundred designs to choose from, Woodcrests offers one of the most extensive collections of natural veneers to choose from. It gracefully unfold into a symphony of three captivating categories, each whispering its own tale of timeless beauty

#### Deco Real (Naturals)

Deco Real natural veneers is a slice of nature, extracted with precision and untouched by influences. The timber is left in its idyllic state, giving rise to a texture that sings a poem to unblemished nature.

#### Fumed Nouveau (Roasted):

Art is an exploration of the hidden corners of the unexpected. It is a journey into the measureless depths of novelty -an idea deftly captured by the assortment of Fumed Nouveau (roasted) veneers. Its naturally dark and smoked appearance is sure to make an appeal to the desire for the new in you.

#### Sterling Solitaire:

Looking at a piece of art is like staring at the moon in the night sky -it never gets tiring. The wide array of Sterling Solitaire veneers will have a similar effect on your senses. The veneers undergo a special silver finish, leaving them with a sheen that is sure to dazzle any space.

	Kraft	1250
	Flitch backing	550
07	Surface Texture	
	Natural	Products are made available in different surface textures that can vary from a natural wood look or specially designed textures in order to provide a unique look.
	Saw Cut	
	Special Texture	
08	Colours Available	
	Natural	Over 200 Species of select colours & veneer styles. Available in both customized and as Wood Crrests offer different colours available to suit requirements
	Dyed	
	Smoked	
09	Cuts Available	
	Crown cut	Precise sizing of the logs in different axes is carried out in order to obtain a variety of grains of grains from a same wood species which stand as an embodiment of natures gift
	Quarter cut	
	Rift cut	
	Rotary cut	
10	Veneer Matching	
	Book Matching	Matching Styles of Veneers to suit unmatchable creativity of the architectural minds Custom made matching and special matching is possible to add to uniqueness of paneling
	Mix Matching	
	Slip Matching	
	Reuerse Slip Matching	
	Borer & Termite Resistance	Product exhibit a defined resistance.
TECHNICAL & EMISSION CHARACTERISTICS		
11	Bonding	In- house formulation
12	Adhesive Emissions Bonding	Zero Emission
13	Strength of Adhesive	ANSI
14	Resistance to Colour Change	Changes owing to nature of wood are observed over a period of time & exposure to light

# The Woodcrrests Veneer Difference

- Zero Emission veneers for safe interiors
- More than Eleven Hundred Designs
- Sourced from the exotic forests of Canada, Brazil, Argentina, Italy, Germany & Africa.
- Joint Free Veneers
- Pre-press technology for better stability and bonding
- Automated finishing process for identical surface output across sheets.
- BWP grade carrier base ply.

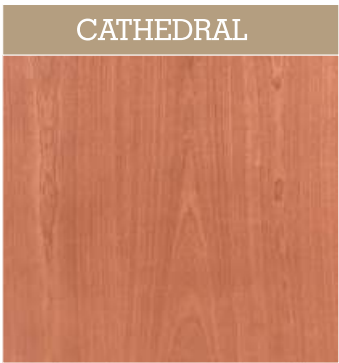

The undulating growth rings of wood give rise to a unique property known as its figure. This stunning effect is created by the wrinkling or bending of the growth rings caused by external factors like wind, bark pressure, and surface indentations from vines, fungus, and other elements. Since each tree has its own figure, it is incredibly valuable and highly sought-after.

The density of grains and natural luster of these figures varies, making each piece of wood truly unique. The distinct characteristics of wood figures elevate the texture of the wood and add a touch of natural beauty to any space. Whether it's a rustic cabin or a modern office, the figure of wood creates an impeccable aesthetic that's impossible to replicate.

Stripe Grain  
A pattern of contrasting colour stripes veining in the grain direction.

Cathedral  
Crown cutting with an arching shape produces elegant 'V' or 'U' shaped grains.

Half-Cathedral  
This has half of the 'V' or 'U' grain formations, which are similar to the Cathedral structure.

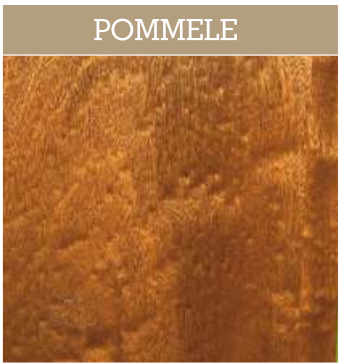

Figured  
The figure gets its name from the wood grains seen on the backs of stringed instruments such as fiddles and guitars.

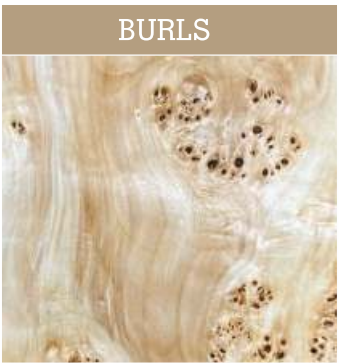

Mottled  
Sharp edges provide iridescent angular rays that shine. Mottled surfaces appear bold and gleaming.

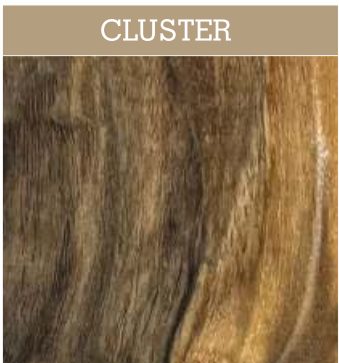

# The Carved CHRONICLES

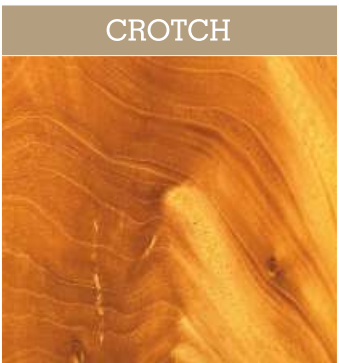

Pommele  
Pommele is a French word that means 'dappled'. Because of their irregular and thick grain patterns, they produce three-dimensional effects.

Burls  
Due to warping and breaking burls that develop in outgrowths, this rare wood develops its unorganized grains.

Cluster  
The marvel of clusters is formed when partially burling logs undergo rotational slicing.

Crotch  
A crotch is a grain pattern generated at the juncture of a branch and the main section.

Bird's Eye  
These scattered eye shaped marks on the surface of woods like maple are called Bird's Eye figure.

## Dyed Veneers Range

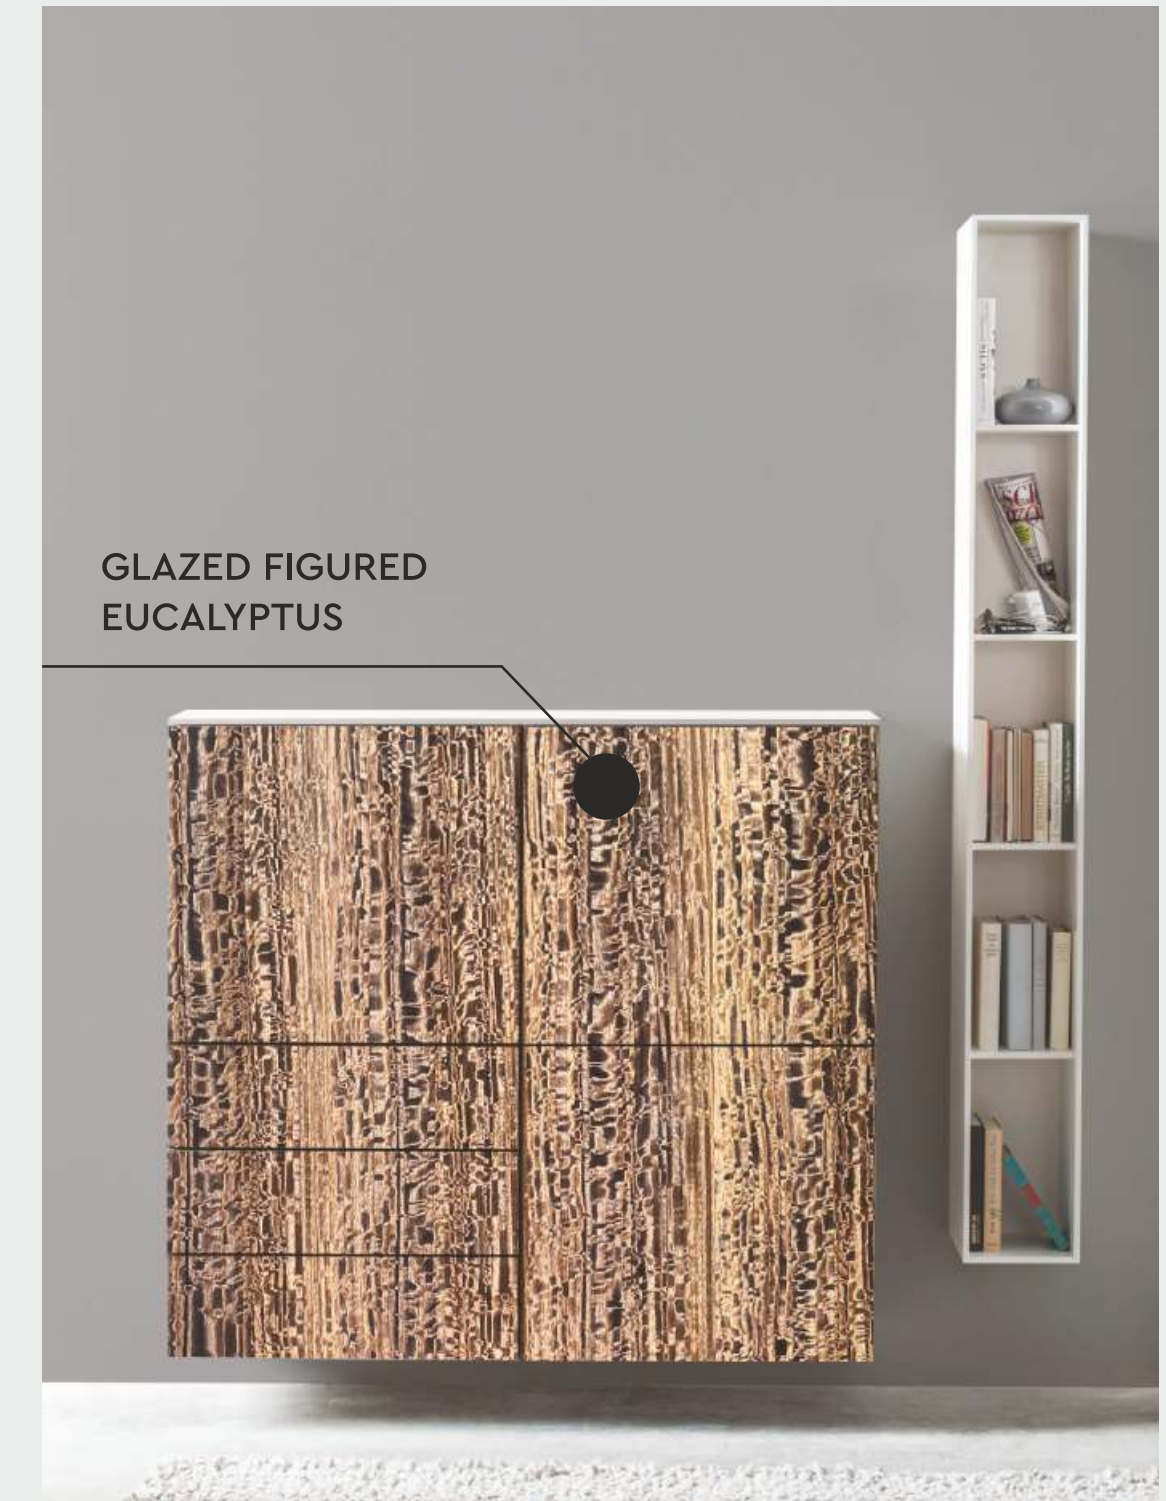

Originating from the artistic heartland of Italy, Farbivo decorative veneers possess a remarkable versatility while brimming with captivating character. Each veneer within the Farbivo collection is a testament to artistic craftsmanship, boasting vibrant hues and intricate patterns that captivate the eye. The infusion of dye into the veneer creates a depth of color and texture that breathes life into any surface it adorns, capturing the imagination of all who behold it.

SUCUPIRA OYSTER GREY

## Glazed Veneers Range

Woodcrrests glazed veneer range aspires to embody captivating aesthetics. Our veneers are meticulously crafted, adorned with metallic and organic colours that grace the surface with a radiant allure. From adorning furniture and cabinetry to enhancing wall panels and architectural elements, the possibilities are endless. Let your creativity soar as you explore the transformative power of our glazed veneers, breathing life into your spaces with their radiant beauty.

GLAZED FIGURED  
EUCALYPTUS

## HD Veneers Range

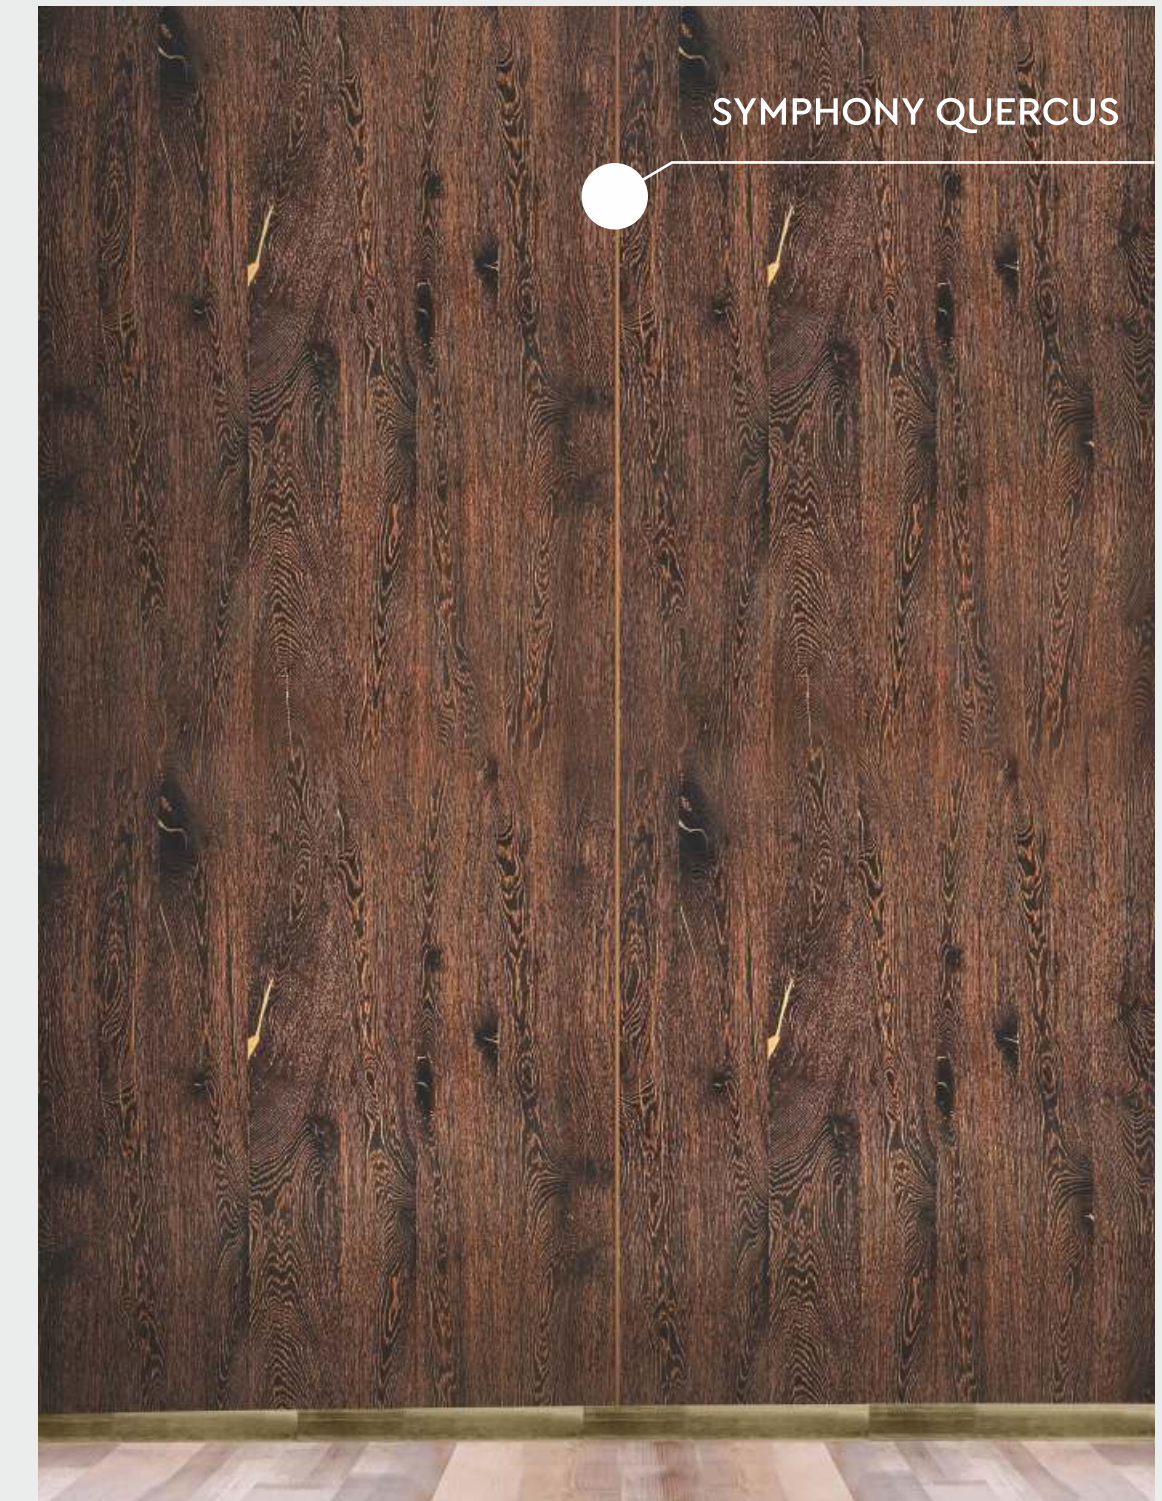

With each graceful stroke of an artist's brush, galaxies burst forth into existence, transcending the boundaries of reality. They expand before our eyes, growing larger, becoming clearer, and exuding an unmatched elegance that surpasses our mere mortal existence. Similarly, art has the power to redeem and elevate life, just as high-definition technology from Wood Crests enriches and enhances our living spaces. Through a distinctive brushing technique, an open grain effect is achieved, bestowing the veneer with a naturally raw wood finish. This technique imbues the wood with an organic essence, creating a captivating and authentic aesthetic that connects us to the inherent beauty of nature

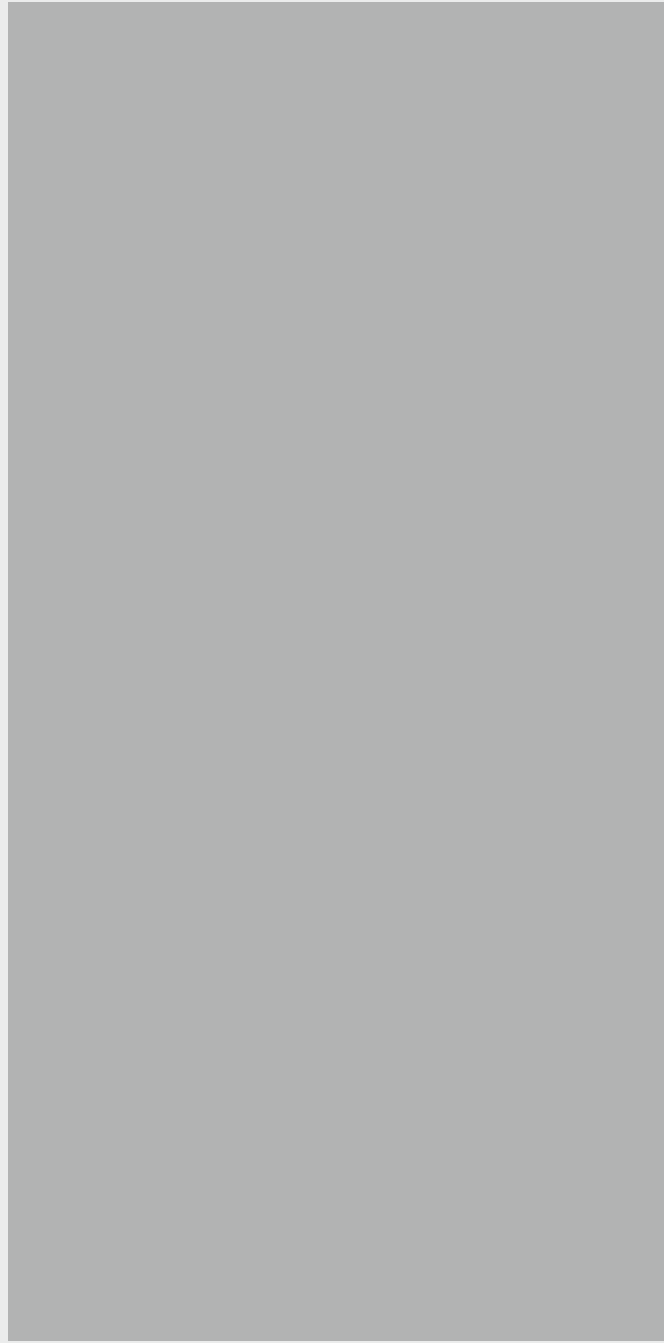

## Symphony Veneers Range

**Wood  
crests**<sup>TM</sup>  
Veneers from *Greenply*

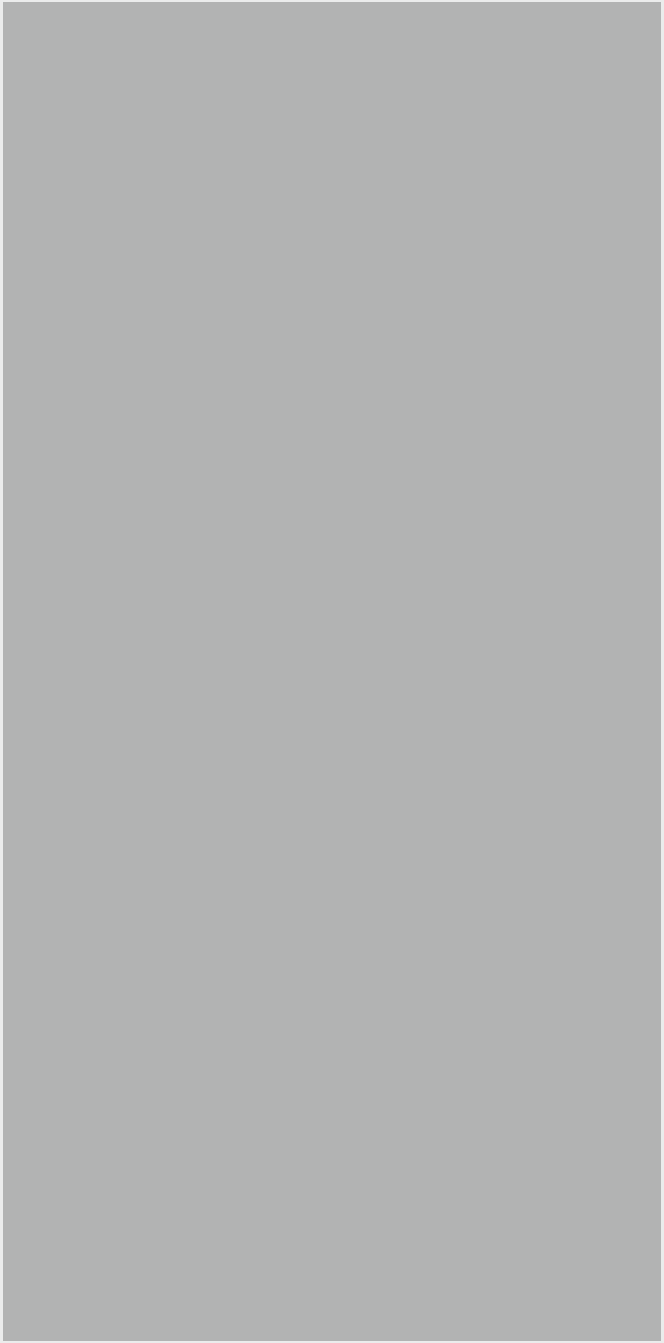

Symphony is a testament to the power of artistic fusion, seamlessly blending vibrant hues into the very essence of natural veneers. Like a symphony coming to life, this collection harmonizes contrasting shades, giving rise to a visual masterpiece that resonates with sophistication and grace. With Symphony, your living space becomes a stage for artistic expression, where the captivating dualities of light and shade merge effortlessly, creating a symphony of elegance that resonates throughout your home. It is an invitation to experience the harmonious interplay of colors, where each veneer unveils a new chapter in the tale of artistic brilliance.
